

SwimView 2.0

Professor: Robert Dean

Team Members:

Harrison Burch
Demetris Coleman
Avion Foreman
Jungihn Kim
Dustin Spencer
William Stewart
Nick Thompson

Description:

SwimView is a robot that will benefit the Biomechanics Lab in the Department of Kinesiology at Auburn University and its efforts to train swimmers of all different skill levels. It has two modes of operation: manual and autonomous. An Xbox controller is used to operate manual functionality and switch between modes of operation.
